

# OBERHEIM MATRIX 6 WHITE NOISE GEN

2000. Drawn by Marjan Urekar

SIMPLIFIED MATRIX 6 WHITE NOISE GENERATOR (WITHOUT 4053 SWITCHES). NOT VERY EXCITING SCHEMATIC BUT IT SOUNDS GOOD IN THIS POLYSYNTH SELECT BCX59Y FOR BEST NOISE OUTPUT. YOU CAN USE ANY NPN LIKE BC107. JUST LISTEN TO FIND THE ONE THAT SUITS YOUR TASTE. ORIGINAL TRANNY: MPS5172 ORIGINAL OPAMP: LM301AC 22p, 10n AND 1M ELEMENTS ARE ADDED FOR BETTER PERFORMANCE. +/-V = +/-12V

THANKS TO JORGEN BERGFORS FOR SUGGESTIONS AND IMPROVEMENTS.
